**PART I—Section 1****Notifications relating to Non-Statutory Rules, Regulations and Orders and Resolutions issued by the Ministries of the Government of India (other than the Ministry of Defence) and by the Supreme Court****PRESIDENT'S SECRETARIAT***New Delhi, the 29th August 1961*

**No. 41-Pres./61.**—The President is pleased to award the President's Police and Fire Services Medal for gallantry to the following Fire Service Officer:—

*Name of the officer and rank.*

Shri Amar Nath Ahluwalia, Fire Chief, Bhakra Nangal Project, Punjab.

*Statement of services for which the decoration has been awarded.*

On the 13th May, 1960, a fire broke out in the 6000 KV electric substation at the 1400 elevation plant area at a point which was the nerve centre of the Rs. 5 crore concrete plant of Bhakra Dam. There are a large number of vital installations around this substation including a battery of 10 compressors for supplying compressed air for various operations on the Dam; a battery of 3 Ammonia compressors for furnishing chilled water for the manufacture of concrete; a battery of 6 chillers with its ammonia reservoir; a cooling plant with its connected conveyor system; a clarifloculator for the supply of deilted water for the manufacture of concrete and immediately above the sub-station where the fire originated a conveyor housed in an insulated structure providing the only connecting link for furnishing supplies to the Batching and Mixing Plant for the manufacture of concrete. These costly and vital installations are adjacent to each other and, except for the clarifloculator, are highly inflammable.

Shri Amar Nath Ahluwalia, Fire Chief, Bhakra Nangal Project, arrived at the scene of the fire with his fire-fighting crew within a few minutes of the alarm being given. Realising that if the fire spread to the ammonia plant a serious explosion might occur which would engulf the other installations and result in the possible loss of many human lives and much valuable equipment halting construction work on the Bhakra Dam for a considerable period, Shri Ahluwalia with heroic determination and professional skill and in the face of great personal risk, directed his fire-fighting equipment in such a way that a barrier was created between the fire and the substation and the surrounding inflammable installations. By these tactics he brought the main conflagration under control within two hours, but continued to remain on duty for 12 hours until such time as the last embers of the fire had been extinguished.

In this incident, Shri Ahluwalia showed conspicuous gallantry, presence of mind, technical skill and devotion to duty of a high order in total disregard of his personal safety.

2. This award is made for gallantry under rule 4(i) of the rules governing the award of the President's Police and Fire Services Medal and consequently carries with it the special allowance admissible to officers of and below the rank of Inspector of Police as provided in rule 5.
